In your case, call to getMetadata() won't block the app's UI thread and will return immediately, while the download will continue in the background. My code is: `func getMetadata(completion: @escaping (_ metadata: Metadata?)-> Void){ let storageRef = Storage.storage().reference().child("EXPORTED_IMAGE").child("arquivo-outro.jpg") storageRef.getData(maxSize: 1 * 1024 * 1024) { (data, error) in if let error = error { print("Error getting document: \(error)") } else { guard let data = data else { return completion(nil) } guard let metadata = (try? JSONDecoder().decode(Metadata.self, from: data)) else { return completion(nil) } completion(metadata) } } }` And to call the function I use: `getMetadata {`
