A quarter size is about the largest size commercial printers and manufacturing equipment makers sell. It is a good size for printing-related business cards and pamphlets, and it will hold about 10 sheets of paper. It comes in several different sizes including 8x10, 10x12, and 12x18. The bigger sizes can be used for more complex designs, but the smaller sizes offer a wide selection of colors at a great price. . Floorplan 3d drawing? serial number?.
