Splinter Cell: Blacklist PS4 GENRE: Stealth Action
Console: PlayStation 4 ED: Keiichiro Toyama, Larry Ahern, Ari Handel DISC: Original Game: Xbox 360, 5th November 2014 Splinter Cell: Blacklist is an action-stealth game set in a near future that mixes first-person shooter with stealth, where players can completely avoid confrontation with the enemy and continue to sneak by the enemies. The day before his mission, Fisher is kidnapped by an unknown caller who claims to be from Third Echelon, and the mysterious phone call leads to the challenge of the game. This game features all elements of the Splinter Cell series including context-sensitive voice commands, in-game messages and radio chatter, and numerous gadgets and items to enhance your stealth abilities. All of these elements

were introduced into this game and are exclusive to the title. For the first time in a game in the Splinter Cell series, players now have the ability to explore each level in the game without showing up on an enemy's radar, use lethal actions such as a knife to attack an enemy, or the ability to turn invisible, which is a power formerly reserved for only Sam Fisher, the lead character of the Splinter Cell games....
