I am trying to replace this (e.g.): IN CONFLICT. To this (e.g.): CONFLICT. I've tried this in eclipse: File > New > Text File > "Replace in Files" Under the 'Search' field, I type in "IN CONFLICT." But it does not find it. Under the 'Replace' field, I type in "CONFLICT." I go into the Find & Replace screen and this dialog appears: I click on 'Replace All' and press the 'Replace' button. The dialog box is the same as above. The text file is still the same. What am I doing wrong? This is driving me mad. A: Replace 'IN CONFLICT.' in file by 'CONFLICT.' Close the editor, and then Reopen the file. /* Copyright (C) 1991, 92, 93, 94, 95, 99, 2000, 2002-2006 Free Software * Foundation, Inc. * * Author: Gilbert H. Osgood, Jr. (gilbert@ai.mit.edu) * * 1992 - 99 added routines that take a file name and a pattern to find * matches of and replace with. * * 2000 - 2002 changed from original libm to libc as a replacement * port for people who were using -lm * * 2001 - 2002 added GNU autoconf compatibility, added configure, * fixed the.texi files, and added the stats, copyright, * etc. * * 2003 - 2006 revised for 2008 libm compatibility, dropped support for *
