See generally 1 W. Hawkland, A Transactional Guide to Insurance Law and Practice (1986). 16 Appellant contends, however, that
this case is distinguishable from Usinger because it involves liability under the Fireman's Fund policy and the Usinger policy
covered only property damage. We reject this distinction. A property damage liability policy "covers damage to tangible
property," 1 W. Hawkland, Insurance Law and Practice § 1.04 (1985), and property damage is defined in section E(1) of the
Fireman's Fund policy as "physical damage to tangible property other than the insured property." Thus, the policy covers any
damage to tangible property other than the insured property, such as that to trees, chairs or cabinets. Appellant argues that this
property damage is the only kind of liability covered by the Usinger policy, and thus the two policies are not consistent. This
argument is not persuasive because, as noted above, the two policies are consistent with respect to the property damage coverage,
and inconsistent with respect to the liability coverage. The district court's determination that the two policies are consistent is
correct. Accordingly, the district court did not err in denying appellee's motion for summary judgment. Because the terms of the
Usinger policy conflict with those of the Fireman's Fund policy, the district court correctly held that Fireman's Fund is liable to
appellant for the damage to the decedent's house. 17 The judgment is AFFIRMED. * The Honorable George C. Young, United
States District Judge for the Middle District of Florida, sitting by designation 1 The
