amadeus ppt winedows 2018 crack full version Download CompTIA A+ 2016 Real Exam Questions With Answers. Silent Hunter 5 Steam key HANDHELD ANDROID NEW. Avanset Vce Exam Simulator 2.0.4 Crack Download, CompTIA A+ Certification, vce exam simulator 2.0.4 2019 cracked.Q: How to find all users with specific group / role or users who belongs to organization having specific role or groups I need to find all users who belong to Organization having Organizations with specific groupid. I can find all users having groups(role) or users belonging to an org like this List userList = _context.Users.Where(u => u.UserRole.Any(ur => ur.RoleName == "Administrator") || u.Organization.Any(o => o.OrganizationId == _context.Organization .Where(o => o.OrganizationId == _context.Organization.Where(o1 => o1.OrganizationTypeId == 1).Select(o1 => o1.OrganizationTypeId).Count()))).ToList(); But I can't find users belonging to Organization who has certain groupid. A: You should be able to search for those in the User Object. There is a filter property on the User object called GroupId which allows you to search for Users. In other words (yuck) _context.User.Where(u => u.OrganizationId == _context.Organization.Where(o => o.OrganizationId == _context.Organization.Where(o1 => o1.OrganizationTypeId == 1).Select(o1 => o1.OrganizationTypeId).Count() && u.GroupId == 1)).ToList(); We are doing a u.OrganizationId == _context.Organization.Where(o => o.OrganizationId ==

`_context.Organization.Where(o1 => o1.OrganizationTypeId == 1).Select(o1 => o1.OrganizationTypeId).Count() && u.GroupId == 1)`, which is what we 3ef4e8ef8d
