User Reviews Try it out: RunAlyzer  
Rating: Travis Review: This is a great application if you want to see what your system is trying to start

---

up. Yeah, I've always liked that I can start up my PC and check for any p[rocesses/services that may be running that I don't need. Its cool. However, when I restart my PC and it only shows a message saying that it stopped working due to a shutdown/startup problem, that's kinda frustrating. I don't know if its just me, but I think it would be a lot

---

more useful if it simply started up right and told me what is trying to start up and what it is doing. Other than that, it's great. I highly recommend it
