## System Requirements:

Mumble, Discord, Steam, Origin, Battle.net, iTunes, and Uplay are required for a successful installation. A compatible headset with some kind of microphone is strongly recommended, especially with regards to high quality audio, be it a Turtle Beach headset, Logitech headset, or Sennheiser headset. I would not suggest getting a cheap headset, because a lot of things can go wrong, and it is hard to trouble shoot when a headset just doesn't work. Installation If you've followed the installation guide properly, you
