

---

## Password Encrypted File Euro Truck Simulator 2

The password is with the creator or the source of the encrypted file. So you should contact the source of the encrypted file and ask if he/she can ... (etc.) \* \* \* If you don't know the password, you can only guess that you won't be told it. So you should write to support and ask for information about who has access to the data you are trying to decrypt.
