LCC Handler is a simple user friendly application. We understand that most of the users of our application might not be that familiar with the terminology used in LCC. Hence we have come up with a couple of tabbed groups with clearly defined and clearly explained terminology used in LCC. In the groups we have also made the most common terminology as bolded text to make it easier to understand. We hope with our efforts that this application will make Bank Branches lives easier by making your job easier. The application can be installed on your local computer and used with your own login credential and customer accesses our website through internet. LCC Handler also generates PDF file of the processed files and it can be downloaded from our website. Some of the major features of the application are: **Cheque registration** - A cheque with the name of the Customer will be firstly registered in the system and then registered in the bank's LCC system. This will be done through our website. **Cheque Dispensing** - The cheque that was registered in the system will be dispensed from the bank's LCC system. This will be done through our website. **Cheque Collection** - Once the cheque that was dispensed by the bank has been collected by the bank's branch or by the customer himself, it will be reported in the system. **Cheque Realisation** - The LCC that was registered in the system will be recorded in the system. **LCC Report Generation** - A report will be generated with all the details of the LCCs processed in the system. **TTUM Data Preparation** - The TTUM file of the account to which the cheque belongs to will be generated in the system. This can be downloaded from our website. **LCC Register** - A register will be maintained with details of all the LCCs reported by the bank's branches or by the customer himself. The cheque collection activities will be recorded in this register. **Installation Details: Direct download:** LCC Handler can be downloaded directly through our website. **Setup and Installation:** To setup the application, all you need to do is go to our website (
